Tianchen Qiang

Master's candidate in User Experience Design

EXPERIENCE

The Achievement & Assessment Institute, University of Kansas — *Front-end Developer*

SEPTEMBER 2015 - PRESENT

Produced several content-legible, user-friendly websites. Conducted user research, produced wire-frames, developed responsive sites with CSS, jQuery and Drupal, and collaborated with content-editors and other designers to complete the project.

YiFang Information Co. Ltd, WuHan — *UX Design Intern*

DECEMBER 2014 - MARCH 2015

Designed an O2O ecommerce website with Axure &Sketch. Directed an online shopping website developed with AngularJS. Program managed the design & development cycle, overseeing task assignment & tracking, process efficiency, and release scheduling.

Second-hand Shopping Site for Students, Lawrence — *Director*

SEPTEMBER 2015 - PRESENT

A personal venture where I managed team formation, user research, requirement analysis, design, development, community management via WeChat, advertising and marketing management. Beta 1.0 is complete, which covers 20% of all students. Now extending functionality based on user feedback.

Student Dating Website, WuHan — *Front-end Developer*

AUGUST 2014 - MAY 2015

A personal venture where I developed a responsive website, and optimized its design using Google Analytics and other analytics tools. Performed community management via WeChat. Used by 15000+ university students, received 4000+ page-views per day.
